

The Technology of Participation® Participatory Strategic Planning Course

The flow of ToP® Participatory Strategic Planning

This manual provides guidance for using the Participatory Strategic Planning process based on ToP Focused Conversation and Consensus Workshop Methods.

In addition, the manual contains an overview of the preparation required before beginning the process and the follow through needed to keep the plan on track after the planning event.

ToP® Participatory Strategic Planning				
Preparation and Design	Practical Vision	Underlying Contradictions	Strategic Directions	Focused Implementation
Preliminary planning activities with a client that clarify who needs to be involved, examines the organization's environment and provides focus for the event.	Practical images of a group's desired future	Sometimes seen as obstacles or root causes, that prevent realization of a group's vision	The strategies that will deal with the contradictions and move a group toward its vision	The substantial actions required to carry out the new directions with measures and implementation plans
